★★★★★★★★★★★★★★★

106E Electric Stapler

The Rapid 106E is an industrial grade electrically operated stapler. It offers quick and silent staplingand meets the demands of industry for strength, operational reliability and flexibility. The Rapid 106E is the perfect choice for stapling of both loose sheets and brochures, for example, in schools, printing works, industrial works and offices. Thanks to its easily interchangeable insert staplers, the Rapid 106E can handle both flat and saddle stapling. Two or more staplers can be connected together to allow several operations to be carried out simultaneously. The Rapid 106E can staple up to 40 sheets (75gsm) in flat stapling mode and 20 sheets (75gsm) in saddle mode.

Free standard post and packing is available on the Rapid 106E electric stapler, or a Next Day Delivery Service is available for urgent requirements.

- 230 to 240V, 50Hz operation
- Staple depth variable up to 100mm
- Adjustable stapling depth and variable impact force
- Reliable operation, long service life
- Safe to use - stapling head guard and clearly visible, easy to access stapling zone
- Standard table allows single head flat stapling and single head saddling stapling
- User friendly - front-loading. Automatic or pedal controlled stapling
- Supplied with foot pedal as standard
- Two or more 106E staplers can be linked for simultaneous stapling
- Takes Rapid 66/6-8+ staples
- **Rapid type 106E**

Staple removers

Rapid S60 PressLess Stapler

The Rapid S60 half-strip stapler brings you the heavy-duty power that you lack on your desk! The S60 combines the power of Rapid's Press Less™ technology with Rapid's patented SuperFlatClinch™ by-pass system for effortless and trouble-free flat-clinch stapling. Flatter stapling reduces the document thickness. The S60 staples any quantity between 2 and 60 sheets needing only one staple type.

- Takes standard Rapid 26/6 staples
- SuperFlatClinch™ by-pass system
- Rapid patented technology
- 40% reduced paper stacks due to flatter staples
- 2 to 60 sheet capacity using only 1 staple type
- PressLess™ lever technology
- Up to 50% less effort than standard
- Stapling depth 50mm
- **Rapid type S60**

NEW

Electric Comb Binder Office Use Quasar-E500

This electric punch comb binder has been designed for frequent office use and can effortlessly power through up to 20 sheets of 80gsm paper. The machine will bind up to 300 sheets, with a maximum comb size of 50mm. After binding, the documents may be opened flat, e.g. for photocopying and pages can be quickly and easily added and removed.

Additional features that enhance this binder include an angled comb rake that makes it easier to load the punched sheets and the adjustable rotary edge guide ensures that sheets are aligned accurately. A storage tray is provided that has a patented comb and document measure that assists in the quick selection of the requisite supplies for a particular task. Also, to help prevent jams the unique chip tray will burst out when full.

- Includes starter kit for binding 10 documents
- Electric punch for up to 20 sheets
- 300 sheet binding capacity
- Maximum comb size of 50mm
- Angled comb rake
- Adjustable rotary edge guide
- Storage tray with comb and document measure
- Burst out chip tray
- Vertical Punching
- Binding Element Selector

NEW

Electric Comb Binder Multiple User Galaxy-E500

This comb binder has been designed for heavy, multiple use in a large office environment and has many features that make it a powerful and efficient device. The electric punch can handle up to 25 sheets of 80gsm paper and, with a maximum comb size of 50mm, the machine can bind up to 300 pages. A benefit of using a comb binder is that the resulting bound document can be opened flat for easy viewing, photocopying, etc., also pages may be added/removed easily and quickly.

The binder can be used more efficiently due to the innovative satellite system that consists of a removeable binding platform that allows multiple users to punch and bind simultaneously. There is a selection facility enabling the choice of punching A4 or A5 sized documents and the back margin adjustment selector is ideal for thick documents. Spare covers and combs can be stored in the front access, full size storage tray which also has a clever comb and document measuring system.

- Includes starter kit for binding 20 documents
- Electric punch for up to 25 sheets
- 500 sheet binding capacity
- Maximum comb size of 50mm
- Angled comb rake
- Adjustable rotary edge guide
- Storage tray with comb and document measure
- Burst out chip tray accessible from both sides
- Vertical Punching

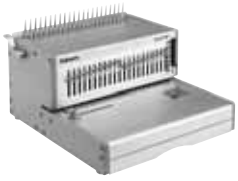
Electric Comb Binder Heavy Use Pedal operated Orion-E500



A comb binder that has a pedal operated electric punch and is designed for heavy useage in a commercial environment. The ability to punch up to 30 sheets and to bind up to 500 sheets with a 51mm comb makes this binder suitable for a wide range of documents and the all metal engine and body is durable and attractive. The bound document may be opened flat for easy viewing or photocopying and the comb binding makes it easy to add or remove pages.

To produce documents precisely as required the binder has features such as 21 individually selectable punching pins to tailor for individual document widths. An adjustable punch depth is provided for extra large documents and an adjustable side margin edge guide easily centers documents also there is a five position back margin and document measure.

- Heavy duty commercial binder
- Pedal operated punch
- For high volume use
- Electric punch for up to 30 sheets

DIN 3 Professional Shredder 100% Jam-Proof Cross-Cut Powershred 125Ci

This shredder features 100% jam proof technology that eliminates paper jams and misfeeds, powering through any problems. With the ability to shred up to 18 A4 sheets per pass at a rate of 4.8mpm this unit will fulfil the needs of three to five users. The shredder will also cut credit cards, staples, paperclips and DVDs/CDs and produces a DIN security level 3 cross-cut particle of 38 x 3.9mm.

An extended run time of up to 45 mins means that high volume shredding jobs can be carried out and the SilentShred technology ensures that there is minimum disruption in the work place. Safety is provisioned by the use of the SafeSense system which automatically stops the shredder when the paper entry is touched.

- Shreds 18 sheets per pass
- DIN 3 cross-cut
- SilentShred and SafeSense technology
- Energy savings system reduces energy consumption
- Auto power off powers down after 2 min of inactivity
- Extended runtime of 45 minutes for high volume shredding
- 49l pull-out bin for easy emptying

Technical specification	
Sheet capacity	18
Average shred speed	4.8 mpm

DIN 3 Commercial Shredder Cross-Cut Continuous Use Powershred 225Ci

A commercial standard, powerful cross-cut shredder intended for high useage within a shared office environment and with a DIN 3 security level cut that produces a particle size of 3.9 x 38mm. The machine can shred up to 20 sheets at a time and is 100% jam-proof, powering through potential jams and tough jobs and also has the ability to shred staples, paperclips, credit cards and CDs.

A continuous use duty cycle enables the full utilisation of the shredder and the SilentShred function means that there is minimum disruption. An energy saving system reduces energy consumption by up to 70% and switches to standby mode after two minutes of inactivity. For safety, SafeSense halts the shredding function when the the paper entry is touched.

- Continuous duty motor
- Usage 5+ people
- Shreds 20 sheets per pass
- Particle size 3.9 x 38mm cross-cut
- Shreds staples, paperclips, credit cards and CDs
- Wide paper entry - throat width 240mm
- Bin full light
- Autostart and autostop
- Basket type pull-out bin
- Bin full light

DIN 3 Heavy Duty Shredder Cross-Cut Continuous Use Powershred 425Ci

NEW

A heavy duty shredder intended for installation in large offices to support 20+ users. The machine has a continuous use duty cycle and the wide 305mm paper entry can handle up to 30 sheets in one pass. A 100% jam-proof system ensures that potential jams are powered through and the shredder produces a DIN 3 particle of 4 x 30mm. The shredder can also tackle staples, paperclips, credit cards and CDs.

This shredder has additional features that make it ideal for use in multi-user environments including an Auto-Oil feature that automatically lubricates the cutting blades to extend the life of the shredder and to enhance performance. Safety is taken care of via the SafeSense system that will stop the shredder when the paper entry area is touched. In-use energy consumption is reduced by the implementation of an energy saving system which also shuts off power after two minutes of inactivity.

- Usage 20+ people
- Shreds up to 30 sheets per pass
- Continuous duty motor
- Particle size 4 x 30mm cross-cut
- Wide paper entry - throat width 305mm
- Shreds staples, paperclips, credit cards and CDs
- Autostart and autostop
- Large capacity basket type pull-out bin
- Bin full light

DIN 3 Shredder Cross-Cut Large Office Continuous Use Powershred 485Ci

NEW

This shreddder produces a DIN 3 cross-cut particle size of just 3.9 x 30mm from paper entered through its wide paper entry. The powerful motor also has the ability to shred staples, paperclips, credit cards and CDs and a 100% jam-proof mechanism prevents jams from happening. The shredder may be used continously and even has an Auto-Oil function that lubricates the cutting blades, enhancing performance and extending shredder life.

A large capacity 142l pull-out bin is suitable for a high volume of shredding and further features that make this shredder suitable for commercial use by multiple users include SafeSense technology which will shut down shredding when the paper entry area is touched and also an energy saving system reduces in-use power consumption, powering down the shredder after two minutes of inactivity.

- Usage 20+ people
- Shreds up to 40 sheets per pass
- Continuous duty motor
- Particle size 5.8mm strip-cut
- Wide paper entry - throat width 305mm
- Shreds staples, paperclips, credit cards and CDs
- Autostart and autostop

DIN 4 Shredder Microshred EF-1524M

NEW

This shredder is a superior DIN security level 4 machine meaning that it will handle commercially sensitive material, using its microcut technology to produce particles of just 2 x 15mm - shredding an A4 page into over 2000 pieces. With the ability to shred between 11 and 13 sheets of A4 at an average speed of 6 mpm via the wide paper entry throat the shredder is ideal for the small office.

The machine is intended for the use of between three and five people who will benefit from features such as a safety protection system that provides an electronically-controlled, transparent safety shield in the paper entry. A pull-out bin with 35l of particle capacity is provided, along with a bin full light. The powerful shredding mechanism will not only shred paper but will also power its way through credit cards, paperclips and staples.

- MicroShred particle size 2 x 15mm
- DIN 4 security level suitable for commercially sensitive material
- Auto Start/Stop
- Bin full light
- Energy saving sleep mode after one hour of inactivity
- Runtime 30 minutes

Kingston Memory Card

Kingston Technology's Secure Digital High-Capacity (SDHC) memory cards are fully compliant with the new Secure Digital Association 2.00 specification. They are a new performance class of SD memory cards designed to meet the storage demands of high-quality digital still and video cameras and other high-resolution image recording devices.

SDHC cards offer larger-volume data storage and optimized recording performance with support for FAT 32 file formats. Although identical in size to today's standard SD card, the new SDHC cards are designed differently and are only recognized by SDHC host devices. To ensure compatibility, look for the SDHC logo on cards and host devices (cameras, camcorders, etc.).

For added reliability and durability, Kingston Technology's solid-state SDHC memory cards are built of nonvolatile memory components and have no moving parts that could wear out or break. All Kingston's SDHC cards are 100-percent tested and are backed by a lifetime warranty and 24/7 live technical support.

- Capacities: 4GB, 8GB, 16GB & 32GB
- High-Speed Class Rating: Class 4: 4 MB/sec minimum data transfer rate
- Dimensions: 24 x 32 x 2.1mm (0.94 x 1.25 x 0.08in.)
- Operating Temperature: -25° to 80° C (-13° to 185°F)
- Weight: 2.3g (0.08 oz.)
- Voltage: 3.3V
- File Format: FAT 32

imation

Imation DVD-R/DVD+R (16x), (write once)

Imation DVD+R and DVD-R media is a universal and interchangeable media format. Each disc can hold 4.7 Gbytes of information, which translates to more than two hours of high quality MPEG2 video with excellent picture quality. With its two-way compatibility, DVD-R and DVD+R media can be played in most DVD Video players and DVD-ROM drives in use today, as well as in multi-format drives and super drives. Ideal for the combined storage of large capacity video, music, photo and data files, as well as long-term archival storage.

- Recordable DVD+R and DVD-R
- Ideal for video and data applications
- 16x Recording
- Holds seven times more data than CD-R
- Outstanding picture and sound quality
- Rewritable format allows 1,000 rewrite cycles
- Records and stores data, video, photos, music and more
- Designed for both PC and video entertainment applications
- Long-term data archiving
- Available on **spindles of 25** or in **slim cases of 10**

Duo-pen – interactive computer screen adaptor

The DuoPen digital pen is an innovative USB input device which can convert any ordinary laptop or desktop computer monitor into a fully-interactive touch-screen device.

Using DuoPen, you can enhance and improve the potential of your PC's capabilities. DuoPen adds the ability to operate the PC mouse facilities via the screen, incorporates handwriting and drawing options and is ideal as an interactive interface for design and gaming options. Simple to install, the DuoPen immediately upgrades the PC/Laptop to provide full interactive functionality by using a combination of ultrasonic waves and infrared to plot or recognise the pen's location on the screen.

- Allows you to write directly on to the screen
- Enables full touch-screen functionality for use with an ordinary notebook/PC
- Note-taking function allows users to write on a normal piece of paper which is clipped into the receiver station and saved directly into your notebook/PC for later use
- Precise and fine writing ability with DuoPen's patented technology and Microsoft Ink Library
- Hover mode function which enables it to operate in free space, for smooth writing and gaming applications
- Virtual writing means no actual pressure is placed on the screen. Used for drawing delicate pictures and using air brush effects
- Word recognition supported on Windows Vista Premium and higher (including Windows 7) or by installing software from CD or internet free downloads
- Gesture (motion) recognition (also known as 'pen flicks'), allows the user to execute various pre-defined functions easily when using internet, e-mail or selected software
- Carry bag supplied with spare pen and fibre nib tips. Fibre nibs supplied for use on plastic LCD or LED screens. Real ball-point pen tip and electronic pen tip also included

TZe Tapes for Brother Labelling Systems

A wide range of tapes suitable for Brother labelling systems and label printers.

Brother TZe tapes use less material and have less packaging than the old TZ tapes to reduce their impact on the environment. TZe tapes are fully **backward** compatible with older printers.
- Labels are laminated making them weatherproof, scratchproof
- Will endure temperatures from 50° to 300°C
- Characters are printed under the laminate making the tapes suitable for use in the harshest of environments

Please note that newer models of printer may not accept the old TZ tapes. Please check compatibility.

Please note that **TZe-N241, 25-0924** *is not laminated.*

Recycling

re:create™

Classroom recycling twin bin

This compact recycling unit fits snugly against a wall or in a recess.

- Very heavy-duty double-wall fluted board
- 2 compartments e.g. for paper and standard waste
- Blank identity panels on lid for your own messages
- Four pre-printed labels
- Four labels for use with inkjet and laser printers
- Very low carbon footprint
- Made in UK from up to 80% recycled material
- Large 180 litre capacity (2x 90 litre)
- Patented 'drop out base' allows body of bin to be lifted off full sacks avoiding high lifting
- Transparent bin liners allow easy identification of contents
- Bins are supplied flat-packed for reduced storage and transport
- Strong re-useable bin liners are available separately in **rolls of 50**

Type	Order code	1+
Classroom twin bin	**34-6206**	38.90
Roll of 50 bags	**34-6216**	29.37

RVFM

Gold-plated HDMI lead

This HD cable is a high-end quality product. The lead can accommodate the high-speed, data intensive bandwidth performance needed for the new 1080p specification and beyond. Comparable quality cables could easily cost five times as much. You will not find a cable of this superior quality and design in the market today at such an incredible price. Get 100% performance from all your equipment. Swivel end HDMI leads are also available (order code **16-1364**)

- HDMI-HDMI connectors to gain true 1080p high definition picture
- 24K Gold plated connectors for optimum clarity in signal
- 99.99% oxygen-free Cable for minimum signal degradation
- Fully coated and shielded cord for minimum signal interference
- Silver soldering to ensure optimum signal clarity
- Available in **lengths of 1**, **3**, **5** and **10m**
